

Agreement with students from Malmö Art Academy, who have participated in a three-day introductory course in screen printing at KKV Grafik.

Students must be able to work independently. If they need help, they must make an appointment with the workshop's printing technician Laura Bollati via verkstad@kkvgrafikmalmo.se – Laura works Mondays between 2:00 p.m. and 8:00 p.m.

It is good to book an appointment with Laura at the first opportunity after participating in a course in order to be able work independently. The meeting gives an opportunity to ask questions and to repeat important parts in the process.

Students do not have the opportunity to book equipment via our digital booking system, but must inform the printing technician which screen table and screen frame they want to use and which day they want to work in the workshop.

They must enroll in the ledger at the table by the entrance and note that they are from KHM, as Malmö Art Academy have to pay the daily fees.

They also have to write down the material they use in the material folder, materials will be charged Malmö Art Academy. If a student will use more than basic material or special material, they must pay for it themselves.

When you can show that you are able to work on your own, you will get the codes you need to enter. Those codes must not be given to others.

You must also follow the rules that we have in the workshop and clean up when you have finished working. Remove paint spills and waste from tables, walls, doors, floors and equipment.
